

Typical Properties

Appearance	Colourless to Pale Yellow Liquid
Specific Gravity@25°C	1.050 - 1.450
Viscosity@40°C, cSt	60 - 80
pH Value (5% Water Dilution)	9.0 - 11.0
Sulfur Content, %wt	12 - 18
Std Packaging (NW / GW, Kg)	240.0 / 230.0

Product Description

SMARTSUL W4770 is a water soluble sulfurized EP additive, with slight amine smell. Sulfur is non-active, so it will not stain copper.

SMARTSUL W4770 can dissolve in water at all proportions, and is alkaline resistant.

SMARTSUL W4770 can be used in water-based formulations such as soluble oils, semi-synthetic and fully-synthetic fluids.

SMARTSUL W4770 can highly elevate heavy duty performance. More superior performance can be attained when combined with lubricating additives or chlorinated fats.
