

Typical Properties

Appearance	Amber Yellow Liquid
Specific Gravity@25°C	1.000 - 1.100
pH Value (Concentrate)	10 - 13
pH Value (5% Water Dilution)	10 - 12
Residue Film Layer	Non-Sticky
Std Packaging (NW / GW, Kg)	217.0 / 200.0

Product Description

SMARTCLEAN SC100 is a multipurpose cleaner concentrate. It can remove cutting fluid residue and oil film left on tools and machinery parts.

SMARTCLEAN SC100 exhibits superior performance, but not prone to stain ferrous and yellow metals after cleaning.

Better performance can be achieved when heated or under ultra-sound condition.

Advantages:

- Can effectively remove fluid residuals and oil films from tool;
- With corrosion resistance and antibacterial properties, can effectively protect workpieces;
- Low foam property;
- Low odor;
- contain no nitrite or other harmful materials.
